It seems you have Adblocker enabled. In order for us to function properly, we need to be able to run the scripts on this site. Please support us and consider enabling Adblocker while browsing this site. So rich in detail and laid out so beautifully. You can easily customize settings for OS X files (installed apps, aliases, AppleScripts, etc.), Windows files (copy, rename, move, delete), and FTP options. Double-click the files you want to transfer and things happen. You can use the drag and drop method to initiate a transfer. You can search for files on your PC, Mac or online. You can view all the information about the file (file name, size, date, etc.). You can even search for specific file formats on Macs and Windows PCs, or drag and drop multiple files and folders into a Claros Downloader transfer queue. There's a chat room as well. Graphical-based. Works great with Linux, Windows, Mac, and even iOS. Use graphical "explorer-like" commands to get what you need. It works and it works well. This version is stable. All your web browser bookmarks will be backed up to Claros. All you need to do is install the application on your desktop and it will find all your web browsers bookmarks. You can easily configure what is backed up and where. It will periodically check your workstation for new bookmarks and restore any that may have been backed up and not been downloaded. It will make a backup of your iTunes libraries when you ask it to do so. You can configure how often it will check iTunes for new files and what folders and files it will check. This is a complete backup utility. It backs up everything you need to recover your computer even if you've gone over the allotted backup space that the free version of Claros has. If you use the free version of Claros Downloader, you need to register to use it. If you use the premium version, you can backup any amount of space you wish. You can back up folders from any folder on your Mac or PC directly to Claros. You can back up a folder that contains an iTunes library, an Address Book, or a specific application. Use the web user interface, or the command line, to back up your hard drive, your applications (Mac Apps, Windows Apps, or third party apps), and your boot drive (this is b7e8fd5c8

Customizable UI. Encryption of downloads in progress. Drag and Drop support. Download Multiple Files at Once. Download From Mirror Sites and More... I have the latest version (0.7.3) of Claros and the Claros Theme Manager. I have created a theme with a blue color and the buttons are the blue that Claros Downloader usually is. I uploaded my theme to the author (He has been very helpful and even gave me some nice recommendations. Now the problem is that when I have 3 downloads in progress, the two downloads on the top are very fuzzy, like they are one or two pixels from the box. (it's quite clear that they are three but with this issue) The download on the bottom is clear. If I switch to desktop mode (switch to Downloader with two or three downloads), then the ones in the middle are fuzzy (normal). I have tried switching back to the web mode (one or two downloads) and it is working fine. I have left the settings between the web and desktop the same. Anyone knows what is happening? And if there is a solution to this? Vandit Post subject:Posted: 30.09.2012, 22:51 Joined: 2009-08-22 Posts: 558 Status: Offline I'm running Claros Theme Manager 0.5.4. I used the default theme, with the color scheme I set in Claros Theme Manager. I'm running Claros Theme Manager 0.5.4. I used the default theme, with the color scheme I set in Claros Theme Manager. Did you check if the issue is still present on Claros 0.7.
